By Larry Dennis, Udo Machat : The Golf Ball Book mark your spot on the green with a new golf ball marker easily identify your balls placement with golf ball markers from golf galaxy the unique features of supa golf make it much easier to play than traditional golf which makes the game more enjoyable and therefore so much more appealing to a much The Golf Ball Book:

1 of 1 review helpful Interesting overview of history By Richard Dewell I found this interesting and fairly detailed about the development of the golfball I did find that each chapter had significant description of the players and events of each time period before it gave informations the balls of the period I was hoping for more detail on the producers and models to help me research the assortment of balls I have colle Every golfer who has ever teed up a golf ball on the first tee of any golf course at any time will enjoy owning this book Guaranteed It is a book tracing the evolution of the golf ball back to the feather ball and theories on what came before You rsquo ll learn about the gutta percha period the rubber core balls how and by who mmaterials were discovered quirky offerings such as the Radio ball the different cover materials of the modern ball and the latest innovati
